S. A. D. DIRECTORS SAY NEW SCHOOL TO HAVE SEPT. 1968 COMPLETION DATE

With the approach of winter many citizens of the towns in the District have expressed concern about the status of the new District Junior-Senior high school. The Directors of S. A. D. 44 want to take this opportunity to make a progress report to the community.

It is apparent to anyone driving along Rt. 26 and glancing at the site that there is little tangible evidence of progress since early September with the completion of the preliminary clearing and grubbing. True as this may be, the necessary behind-the-scenes activities have been anything but quiet. Directors, members of the Building Committee, administrators, architects and consultants have held frequent meetings to iron out the numerous details preliminary to final approval.

At a special meeting of the Building Committee held Monday evening, Nov. 7, at Locke Mills, contracts were awarded to W. C. Goodwin & Son of Livermore for the well-drilling and to P. H. Chadbourne Co. of Bethel for the rough grading. Work on the site is expected to start immediately with completion anticipated before the ground freezes. This will enable actual construction to start approximately six weeks earlier than normal in the spring.

Due to various reasons, final approval of the architectural

COMMENTS FROM THE TOWN MANAGER'S OFFICE

The highways that are the responsibility of the town of Bethel received very little damage during the high water last Thursday. About half a dozen loads of gravel were hauled to places where the shoulders of the roads were washed. Some roads were flooded and impassable but the damage was slight.

I mentioned the roads that are the responsibility of the town. There are about 100 miles of roads in the town of Bethel and there are three divisions of responsibility. Part of the highways are maintained summer and winter by the State of Maine. Routes 2, 26, and 5 are in that category. There are some roads in town that are maintained in the summer by the State of Maine and are plowed by the town of Bethel. Some of the roads that fall in this group are Route 35, the Sunday River Road and the Middle Intervale Road. The final class of roads are those roads maintained in the summer and plowed in the winter by the town of Bethel. This final group includes all the town streets and all roads not in the other two groups. I believe it is confusing to most people and many times reports are made to the Town Office of trees down in the highway or potholes in the highway. I wouldn't expect everyone to memorize the summer and winter responsibility of all the highways in town so just keep making the reports to the Town Office. If the town should fix the trouble, we will try. If the responsibility lies elsewhere, we will attempt to notify the proper party.

There was a pretty good turnout for the off-year election with something over 60% of the eligible voters casting their ballots. The 60% isn't very good compared to some standards but is very good compared to others. There have been elections in which less than 15% of the eligible voters participated. That is an extremely poor showing, so the 60% doesn't look too bad.

NATIVITY SCENE PLANS COMMITTEE TO MEET NOV. 14

Plans are underway for Bethel's third annual Living Nativity Scene. A short planning committee meeting will be held on Monday, November 14 from 7:30 p. m. to 8:30 p. m. at the home of Mrs. Emily Saunders on Main Street. Committees will be formed and a chairman elected. It is hoped that at least one representative from each church, school and organization previously involved will be present. Also, anyone else interested in offering a few hours of their time to help present this pageant is invited.

This annual project is greatly enjoyed and appreciated by the entire community and surrounding areas as well. But the Christmas season is a busy time for everyone. The people involved in preparations for the pageant during the past two years deserve to be on the sidelines this year. Citizens are asked to show their interest and true Christmas spirit in keeping this pageant an annual event, by attending this meeting. Many hands will make light work for all.

WORD OF THANKS

We would like to thank all those who offered their help, vehicles and storage space in the event we had been forced to move during the high water last Thursday.

LAST WEEK'S RAIN CAUSES DAMAGE, INCONVENIENCE

Towns in Northwestern Oxford County reported various stages of flooding last Thursday, following a two day wind driven rain storm. Interstate passage from Maine into New Hampshire was halted for some time on Rt. 2 at Gilead as the result of landslide.

U. S. Route 2 in Gilead was completely closed down for some time when the rain loosened a banking on the south side of the road near "The Ledges" between the Mason Farm and Harry Taylor's property. A crew from the State Highway Department cleared the highway enough to allow one-way traffic on the busy thoroughfare leading into New Hampshire.

Rural roads experienced some flooding with the Sunday River Road at Swan's Corner reported to be completely under water. Officials closed the Alder River Bridge on Route 26 as the Androscoggin River continued to rise. State police were only allowing emergency passage on that road for a short time Thursday night.

Heavy damage on Town Roads was reported by some municipalities in the area.

Arden Jodrey was taken to the Maine Osteopathic Hospital in Portland Sunday.

On the question to authorize a bond issue of \$1,500,000 to preserve the Allagash, the Bethel results were Yes 571, No 109.

STUDENTS TO NAME NEW S. A. D. 44 SCHOOL

The committee appointed by the Directors of S. A. D. # 44 for recommending a method of naming the new school met Tuesday evening, Nov. 1, at the Crescent Park School.

The members present decided immediately that both students and townspeople within the District should have the opportunity to participate in this project. As a result, it was voted that the students would be represented by a Joint Student Council collected from students in grades nine through twelve presently attending Andover and Woodstock High Schools, as well as Gould Academy.

The numerical representation would be on the basis of three students each from Andover and Woodstock with four representing District-wide day students at Gould. These students will meet with an equal number of adults presently represented on the committee appointed by the Directors. This combined group will then screen all names submitted and the winning name will be chosen by the Directors of S. A. D. # 44 at the above recommendation meeting.

Partly by the Directors at their regular meeting held November 2.

All students, regardless of grade level, may enter the contest. Students chosen for the Joint Student Council will decide at a future meeting the method for collecting names. Mr. Vaughn, Principal of the new Junior-Senior high school, will be meeting in the near future with the students or their representative groups at Andover, Woodstock and Gould.

To submit a name, a person needs only to write the name, giving the reason why he feels it would be appropriate. People in the District wishing to enter may until collection points have been chosen, send their recommendations to Mr. Vaughn at the office of the Superintendent of Schools, Bethel, Maine.

AVERAGE SALARY OF MAINE TEACHERS IN 1965

— Says M. T. A. —
 The average salary of Maine teachers for the current school year is \$13,910, the Maine Teachers Association announced. This represents an increase of \$136 over the average salary paid last year to Maine teachers.

— MTA said the figure is based on a complete survey of all Maine school systems, which this year employ 10,520 teachers. The figure covers instructional staff, including principals and superintendents, but not expeditors.

— Lawrence P. Bagley, MTA executive secretary, said that Maine teachers' salaries are problem of teacher supply in all below those paid in nearby states and in competing occupations.

— "Current figures for other states are not yet available," he said, "but it is worthwhile noting that the average salary last year in Massachusetts was \$12,360, in Connecticut the figure was \$7,750."

— Mr. Bagley said that 1965 graduates of the University of Maine who entered teaching received salaries that were on the average \$1,000 less than their classmates who entered other lines of work.

— These facts and the continuing teacher shortage in Maine make it clear that salaries must continue to improve to solve the problem of teacher supply in all below those paid in nearby states.
